As many of you know, my "day job" is being a High School Agricultural Education teacher.

Monday August 22 is our first day of school ! Does that mean summer is over? Does that mean it is fall?

We have had plenty of moisture this summer in southeastern South Dakota. The grass, corn and soybeans still are dark green, but they will start to mature and dry up soon.

The nights are getting cooler and the days shorter. Fall harvest and pheasant hunting season are getting closer.

(There are images included in this e-mail)

Pheasant Season opens the 3rd Sat of Oct. and runs to the New Years weekend. We still have dates open for the 2011 Pheasant Season!
